SYSTECH ERP ™

A robust Spinning Automation ERP that integrates all key functionalities from fibre to yarn

Systech ERP Spinning Automation System (SAS) is a contemporary ERP exclusively designed for the spinning industry. It is a web based, end-to-end application integrating all the key functionalities of the business. It will redefine your business radically by automating the entire process in a tightened manner resulting in cost-cutting, maintaining high utilization and efficiency on machineries and labor. With a perfect blend of technology and best practices, Systech ERP gains keen insight into your daily business making your profitability soar.

Modules :

•Sales •Purchase •Inventory (Stores & RMI) •Production •Maintenance •Energy Management
•HR & Payroll •Fixed Assets •Canteen & Miscellaneous •Finance (Tally Integration)

Web-based : Connect with your Business anywhere and anytime. See reports, Approve transactions all at an incredible speed & performance.

Mobile device: Take it beyond PCs Access in your smart phones and tablets thanks to our exclusive android apps developed for spinning. Now business in the palm of your hand.

Dashboards: Single window information to the entire business by way of dashboards & scorecards with drill down facility. Watch them live for 'absolute control'

Paperless Office: Store images against any transaction for instant reference and audit, be it vendor invoice, employee photo, picture of a spare, drawing of a m/c or anything. Convert reports into Excels & PDFs for quick sharing. Save paper and be environment friendly

SMS/e-Mail Alerts: Send critical notications and reports as alerts over SMS or email. Act pro-actively before it becomes too late.

Interoperability: Connect and fetch production data on a real time basis from machines right from blowroom till winding. Similarly connect to biometric attendance, bar-code and weighing devices.

Tally Integration: Automatic integration with Tally. ERP9 for posting of sales, purchase, payment, receipt and journal vouchers. No manual replication and absolute peace of mind.

Not one, Many: Handles & consolidates multiple divisions, cost-centers, units, locations branches eortlessly. Simplied business solutions
